Foreword

Dear Families, Friends, and Faculty,

Contained in the following pages is our story—a story not only of our memories and experiences of the past three years, but of our hopes and aspirations for the future.

We have been instructed in the theoretical and practical aspects of nursing. With this basic knowledge in our minds, skill with our hands from experience in performing nursing procedures, and love and sincerity in our hearts for all mankind, we are soon about to enter the world of graduate nurses. This, our chosen profession, is truly an Art, a Science, and a Spirit.

May this yearbook bring as much enjoyment to you who read it, as it did to us who comprised it.

Sincerely,
The Class of 1961

Dedication

To express our gratitude and respect for those who have made us what we are, we dedicate this, our yearbook, to our parents.

They have guided us in the formation of moral standards and religious beliefs, supported us with wisdom and understanding, and shared their experiences that we might adjust better to life.

We humbly pray that this faith and love may manifest itself in our future whether these years shall be devoted to the comfort of the sick or to the establishment of our own families.

Administration

To the Graduating Class:

To you, the Class of 1961,
Congratulations.

Through three years of difficult work you have persevered to the time of your graduation, the result of a combination of much work and effort. Yet this is just the beginning of your opportunity to render the service and practice the ideals which inspired you to pursue the profession of nursing.

You will find also the opportunity of giving leadership that will make a significant contribution to mankind as well as your profession. The ills of man await your ministry, an opportunity shared by all those at Hahnemann who are looking forward to our new era.

We are confident of your ability to achieve your goals and hope you will return often to renew friendships at Hahnemann.

Student Council

SEATED, left to right: G. Adams, C. Toth, C. Porach, R. Dunn. STANDING: M. Angerman, J. Brodnick, P. Catanese, E. Baute.

Claire Porach, president, and council members planned activities throughout the year for student participation. We picnicked in August, donned costumes in October, played pinochle one "Las Vegas Night" in November, gathered 'round the Christmas tree in December, danced at the "Snowball" in February, and honored the "little sisters" at a capping party in April.

Students were encouraged to attend SNAP meetings. Representatives returned from the State and Mock conventions eager to share their experiences.

Spirited by our student government all delighted in the fun-filled programs planned for off-duty hours.

Yearbook

SEATED, left to right: S. Brunner, G. Finley, G. Marzolf, J. Taylor, G. Adams. STANDING: C. Porach, L. Calloway, P. Kelley, E. Baute, C. Toth, P. Wilson, P. Roth, W. Smith.

Any yearbook involves much work both in its planning and composing but "many hands make light work" and work became fun as we prepared this annual.

Especially to be remembered is the day when our co-editors, Joyce Taylor and Grace Marzolf, led the photographer and their willing assistants on a merry chase through the hospital, taking pictures wherever they went. Not so easily seen, of course, but equally important were the efforts of the Literary Staff, headed by Gay Adams, and the Business Staff, under the direction of Sue Brunner. The final task of planning the layouts for the yearbook was in charge of Gladys Finley.

Planning, plotting, and putting together were all made easier with the help and cooperation of all the staff.

Service Club

FIRST ROW, left to right: M. Angerman, R. Pologruto, B. Gochenauer, M. Bartlett. SECOND ROW: N. Flynn, W. Smith, P. Roth, L. Chalfont. THIRD ROW: L. Shuyler, P. Parsons.

Sponsored by the Service Club, we all joined together in a Thanksgiving project to provide a turkey, cranberry sauce, and all the trimmings necessary to make this holiday a happy one for a needy Philadelphia family.

April arrived and with it the joy of Easter. How three little pair of eyes must have brightened as they gazed at Easter baskets, filled with goodies, provided by the student body!

Chorus

FIRST ROW, left to right: P. Shikorsky, B. Gochenauer, L. Shuyler, J. Schmehl, C. Potts, B. Murray, S. Kane, D. Hilman, Q. Pettiferde, E. Thompson. SECOND ROW: R. Pologruto, J. Dill, M. Sweeney, D. Potocki, M. Pitale, A. Nagg, S. Centrella, B. Busch, M. Butera, D. Dubeck, G. Deeble, P. Parsons, J. Jones. THIRD ROW: M. Relitch, P. Belcher, E. Wilson, L. Johnson, N. Gauer, V. Williard, C. Fulchiero, L. Baker, J. Dilworth, L. Langowski, J. Brodnick, S. Notestine, P. Lavery, E. Farrell, M. Levy, J. Cutler. FOURTH ROW: J. Zito, J. Anthony, V. Biddle, C. Zambetti, S. McLean, L. Wiggins, J. Deemer, S. Zieber, H. Loner, L. Illar. Leading: P. Roth.

If practice is the quality upon which perfection depends, the Chorus had the necessary material for beautiful music at the Capping Exercises, their primary function of the school year. Added to practice was the talent of the entire Freshman class and when they sang "I Hear A Song" and "It's A Grand Night For Singing" both talent and practice contributed to the beauty of their presentation. Members of each class joined in the practices as their schedules permitted, but only the Class of '63 sang at their Capping Ceremony. Their directress, Mrs. Gail Reilley, was not present when the picture was taken.

Remember When . . .

Gay kept Wilson company on the 14th floor and drank ice water at 6:55, 11:55, 3:55, and 7:55?

Susie came to the rescue with the table at a delivery in bed—just a table—no instruments?

Cookie answered the phone while doing a cath—and finished by changing the bed?

Brunner emptied 11 beds on 11th floor—without permission?

Lois told Dr. Thoroughgood, "Well, don't look at me. I don't have it." when he said, "Knife, please."?

Gerry went to O. R. for a C-section—after the baby arrived in the nursery?

Gladys poured the wrong solution from the pitcher to use for mouth wash?

Ruth Ann had her blood drawn on our first day at Hahnemann?

Kelley called a surgical resident for a pediatric admission and saw him (Dr. P.) wearing sockless shoes—at 2 A.M.?

Addie left the D. R. to get Dr. Thoroughgood's special instruments for Dr. Tama?

Klopp scrubbed for Dr. Sacks and got some special words of praise for her ability?

Terry dropped a door on her foot and had specialized orthopedic care in the Ortho nursing station?

Joanie almost caused a "shipwreck" during her first scrub for Dr. Reishstein?

Grace went on a diet and had some practical assistance from Dr. Baute?

Jinny missed Dr. Gerner's hands and had Dr. Sterba singing, "I'm Gonna' Wash That Cake Right Outta' My Hair."?

Stud was a "Sleepy Time Gal" when she treated her own headache?

Claire called the wrong number at 3 A.M. and asked a resident to put some side rails up?

Robby did a make-up job on an "ideal" patient—with Dr. Olsen's compliments?

Pearl was determined to give that patient in the Labor Room an enema—even if it WAS Dr. Baute?

June planned a care study and a wedding, did a symptomatology, and studied for a final—the week of December 20th?

Wanda mistook a bedpan flusher for a bath basin—or was it a shower?

Shaker stopped an operation by handing Dr. Tropea a hemostat till she prepared some wire?

Taylor cancelled an operation with a false temp elevation?

Toth took part in Recreational Therapy at E.P.P.I. and had Orthopedic Therapy at Hahnemann?

Wagner got a "Spring Gift" that was a "pace-maker"?

Wilson "accidentally" threw a pair of false teeth down a trash chute?

Beth became the first graduate of the Class of 61?

20 YEARS added to life expectancy in the last half century

An American born in 1910 could expect to live for fifty years. An American baby born today has a life expectancy of seventy years. New and more effective medicines have played a major role in adding these twenty years of life.

Under the American system of free competitive enterprise, Merck Sharp & Dohme has introduced new and remarkably effective medicinals for the preservation of health and the treatment of mankind's afflictions.

Here are some examples of the company's research accomplishments:

1936	Synthesis of **Vitamin B_1,** useful in treating a variety of nerve and heart disorders.
1938-43	Synthesis and introduction of new **Sulfa** drugs to combat bacterial infection.
1944	First synthesis of **Cortisone,** to combat pain and symptoms of arthritis.
1948	Isolation of **Vitamin B_{12},** used to combat pernicious anemia.
1951	First synthesis of **'Benemid'** (Probenecid), for the treatment of gout.
1957	Synthesis and introduction of **'Diuril'** (Chlorothiazide), to combat high blood pressure and congestive heart failure.
1958	Development and introduction of **'Decadron'** (Dexamethasone), the most potent anti-inflammatory steroid.
1959	Development of **'Tetravax'** to immunize infants and children against four deadly childhood diseases —polio, whooping cough, tetanus and diphtheria.
1960	Introduction of **'Purivax',** a more potent and more consistent killed-virus polio vaccine.
1960	Development of **'Thrombolysin',** a clot-dissolving agent of exceptional purity.
